UNFINISHED BUSINESS

Bill No. 1657. Resolution authorizing and directing the Director of the Department of Public Health to act as custodian of the iron lung donated to the City by the Teamsters' Union, Local No. 249, and providing for the lending of same to any hospital operated by the City of Pittsburgh, or to any other hospital in Allegheny County.

In Council, September 30, 1940, read and laid over.

Which was read.

Mr. Gallagher presented

No. 1732.

Pittsburgh, Pa.
October 7, 1940.

Hon. Thomas J. Gallagher,
Councilman.
Dear Sir:—

It is the opinion of this Department that it would be well to add a proviso to the Resolution authorizing the Director of the Department of Public Health to make available the iron lung owned by the City of Pittsburgh to other hospitals of the City. The proviso should be as follows:

"Be it further resolved, That the Director of the Department of Public Health shall, before making such iron lung available to any hospital or institution not operated by the City of Pittsburgh, require such hospital or institution to sign a release absolving the City of Pittsburgh from any responsibility for damage or injury resulting from the use of said iron lung."

It is our opinion that such release would protect the City from liability in the event of any injury. Procuring individual releases from patients would be too cumbersome a method.

Sincerely yours,

WM. ALVAH STEWART,
City Solicitor.

Which was read, received and filed.

Mr. Gallagher moved

To amend the resolution by inserting the words: "and be it further

RESOLVED, That the Director of the Department of Public Health shall, before making such iron lung avail-

able to any hospital or institution not operated by the City of Pittsburgh, require such hospital or institution to sign a release absolving the City of Pittsburgh from any responsibility for damage or injury resulting from the use of said iron lung," as per communication from the Law Department.

Which motion prevailed.

Mr. Gallagher moved

The adoption of the resolution, as amended.

CITY OF PITTSBURGH

Office of the Mayor

October 18, 1940.

President and Members,

The City Council,

City of Pittsburgh.

Gentlemen:

In regard to Bill No. 1530, may I request that your honorable body set a hearing date on this measure for the 29th of October, at which time I hope to demonstrate to your body the following facts in regard to the purpose of this legislation:

1. That the undertaking proposed is a sound engineering project.

2. That in the opinion of those qualified to judge, it is sound economically and capable of self-liquidation. This, of course, will include an estimate of cost.

3. That it will be possible to prepare an alternate plan for the engineering services needed which, by using the co-operation of Federal agencies, will reduce the cost of this engineering work to the City of Pittsburgh.

I should also like to call to your attention at this time, the fact that during the last decade, the growth of Allegheny County amounted to only 3,300 persons per year. This is, of course, a very small rate of population increase, the more so in the light of the fact that our 1939 volume of production was greater than the 1929 volume, indicating that we were displacing men with machines.

This clearly shows that one of our great community problems is to find new industries for Allegheny County in order to make jobs for those men who are displaced by technological improvements, and make it possible to bring new industries and new workers and new homes to the Pittsburgh district.

It is my firm opinion that one of the most potent influences that we could bring to bear to attract new industry into Allegheny County would be the introduction of a great natural resource in the form of a generous

supply of water adapted to manufacturing as well as domestic use.

In view of the importance of this proposal, I trust that your body will give this matter the careful hearing which I am convinced it merits.

Yours very truly,

Cornelius D. Scully,

Mayor.

Which was read, received and filed.

CITY OF PITTSBURGH

Office of the Mayor

October 24, 1940.

President and Members
The City Council
City of Pittsburgh.
Gentlemen:

Regarding Bill No. 1530, when I asked for a hearing on October 29th, that date was requested for the convenience of certain persons from out of town whom I desire to have at the hearing.

When the President of Council fixed the date of October 30th, I took it up with certain of the gentlemen whom I propose to present to Council and found that they could not be present on the 30th.

Therefore, I am asking for a hearing on November 12th or 13th, and would ask that you make a liberal allowance of time to the end that we may have a full presentation of the matter.

Very truly yours,

CORNELIUS D. SCULLY,

Mayor.

Which was read, received and filed.

In Finance Committee, October 22, 1940, read and amended by striking out the words "contract actually let for the erection of such dwelling," and by inserting in lieu thereof the words "dwelling actually under construction," and as amended ordered returned to Council with an affirmative recommendation.

Mr. Demmler also presented
No. 1813.

Pittsburgh, Pa.

October 28, 1940.

President and Members of Council,

Gentlemen:

On Bill No. 1740, being a Resolution authorizing the Mayor to execute a deed to Clara Millstine for certain property in the Eleventh Ward of the City of Pittsburgh, which Bill was affirmatively recommended by the Finance Committee on October 22, 1940, and is therefore, I assume, before your Honorable Body for final enactment today,—it has come to my attention that there is a possibility that this land may have been acquired by the City of Pittsburgh under a Bond Issue of 1908 for the acquisition of additional land to Highland Park. If that is the case, the Resolution is not in proper form inasmuch as it will be necessary to comply with the provisions of the Act of May 16, 1929, P. L. 1773, providing for the manner of the disposal of property purchased by increase of the debt.

I respectfully suggest, therefore, that your Honorable Body refer this Resolution to this Department for the purpose of ascertaining whether it is necessary to correct the Resolution to make it

comply with the terms of the aforesaid Act.

Very truly yours,
WM. ALVAH STEWART,
City Solicitor.

Which was read.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

Mr. Demmler also presented
No. 1814.

October 28, 1940.

President and Members,

City Council,

City of Pittsburgh.

In Re: Bill No. 1759.

Gentlemen:

At a meeting of the Committee on Finance held October 22, 1940, Bill No. 1759 was affirmatively recommended, subject to a report from the Budget Controller.

An investigation has been made as to the necessity of this transfer of \$4,000.00 to Code Account No. 1333, Materials, for the City Home and Hospitals at Mayview, and after inspection and conference with the Electrician, Plumber, Steamfitter and Mr. Buffard at the institution, it was found that materials are urgently needed to make immediate repairs, and would therefore, recommend this bill be finally passed.

Bills No. 1761, No. 1762 and No. 1763 were also affirmed October 22, 1940, for purchase of new equipment and for a contract to repair certain hot and cold water mixing valves at Mayview.

The Committee raised the question, "as to whether the transfer of \$4,000.00 was in relation to these three bills." The transfer has no relation to these three bills which the Committee also affirmed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Which was read, received and filed.

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Which was read.

Mr. Demmler moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time

The Chair said:

Gentlemen:—Some time ago when an agreement was submitted by the Housing Authority, the question came up that the legislation should be prepared by our counsel instead of the counsel for the Authority. This ordinance comes

from the Housing Authority without any notation that it had the approval of the Law Department. Prudence would dictate that legislation of this type should be prepared by our own Law Department.

Mr. Evans arose and said:

Mr. President:—This ordinance was prepared in collaboration with the Law Department. If there is some question about its legality, I would suggest that the ordinance be laid on the table, and an inquiry made of the Law Department as to whether or not the ordinance meets with its approval.

The Chair said:

Gentlemen:—I don't think it is necessary to delay action on the ordinance. There should be something on our record to indicate that the ordinance has the approval of the Law Department.

Mr. Evans said:

Mr. President:—It is true that there is nothing on the record to show that this ordinance has the approval of the Law Department. Before the passage of this ordinance, we should refer the ordinance to the City Solicitor.

The Chair said:

Gentleman:—We can lay over the ordinance and send for the City Solicitor.

Mr. William Alvah Stewart, City Solicitor, having arrived in the Council Chamber, said:

Mr. President and Members of Council:—I suggest that Council go ahead with enacting the ordinance, and before the Mayor signs it, I will have an opportunity to examine it. If the ordinance does not meet with our approval, I will so advise the Mayor or the Council, if you so wish.

Pittsburgh, Pa.

To the President and Members
of City Council,
Pittsburgh, Pennsylvania.
Gentlemen:

Permission is requested of your Hon-

orable Body to permit Miss Anne Fisher, Chief of Social Service, Department of Public Welfare, to go to New York City to assist the Director of the Department of Supplies in the selection of woollens to be used at the Sewing Project. Because of the increase in price for wool, it will not be possible for us to buy the entire yardage requested for the amount of money set up, and it will be necessary at the time of purchase to choose which types are the most necessary for us. Miss Fisher is also familiar

with various patterns, color and types of material which it is possible for the Sewing project to use.

Very sincerely yours,

CLARENCE C. KLEIN,

Director.

Which was read, received and filed, and upon motion of Mr. Gallagher, permission granted.

And upon motion of Mr. Weir

No. 1844.

November 4, 1940.

To the President and Members of Council.

Gentlemen:

On Bill No. 1822, being an Ordinance providing for an agreement to be entered into between the Borough of Munhall and the City of Pittsburgh, relating to the construction of a connection with the West Run Sanitary Sewer Trunk Line of the Borough of Munhall, and the drainage and discharge of sanitary sewage through said trunk sewer, from the portion of the 31st Ward in the City of Pittsburgh that lies within the West Run Drainage Basin,—referred to this Department for a report as to whether the Ordinance is in proper form and as to whether the cost therein provided, or any part thereof, could be assessed against the owners of the property to be served by the sewer, I wish to advise as follows.

The Ordinance, in my opinion, is in proper form. As to the question whether or not assessments could be made against the abutting property owners, I wish to say that, as I understand the proposed contract which would be authorized by Bill No. 1822, the payments therein provided to the Borough of Munhall represent reimbursements to the Borough for the proportionate share of the construction of the Borough's trunk sewer, together with the proper proportionate share for repairs, depreciation of pumps, etc., and proportionate cost of certain extensions made necessary. If this were a city trunk sewer instead of a trunk sewer of the Borough of Munhall, under the decisions the cost could not be assessed against the abutting owners. There is the further objection that some of the items provided for, as above set forth, are not matters which can be the subject of assessments in any event. I conclude, therefore, that no part of the cost provided for in Bill No. 1822 can be assessed against the property owners served.

I wish to point out, however, that under the arrangement with the Borough of Munhall, which is authorized in this Ordinance, the City of Pittsburgh will construct lateral sewers to connect into the trunk sewer of the Borough. The Department of Public Works advises me that this construction of lateral sewers will be provided for in a separate Ordinance and will be done by

WPA labor.

With respect to the cost of the lateral sewers, it is my opinion that assessments may be made against the abutting owners in accordance with the law, but that matter is not included within Bill No. 1822.

Very truly yours,

WM. ALVAH STEWART,
City Solicitor.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 1872.

Gentlemen:

At the meeting of the Committee on Finance held Tuesday, November 12, 1940, Bill No. 1872 was affirmed subject to a report from the Budget Controller.

This bill provides for a transfer of \$2,000.00 from Code Account No. 42, Contingent Fund, to Code Account No. 1862, Provision for Animals, Bureau of Parks, Highland Park Zoo.

The appropriation for 1940 for provision for animals was \$16,000.00, which sum is \$2,000.00 more than was appropriated in 1939. However, the appropriation in 1939 and prior years had been lumped with other appropriations for supplies, and it is claimed by the department that approximately \$16,000.00 was expended for the same purpose last year.

Recent alterations and additions to the Highland Park Zoo have provided for enlargement of the population and during the past year 256 additional specimens have been added and in addition, the price of meat has advanced and the price of vegetables has doubled.

These items lead to added expenditures, however, since the extensions to the Zoo are now provided for, it can be expected that the sum of approximately \$18,000.00 will be the annual cost for food and forage for the animals, consistent with the rise and fall of prices.

There are three concessions at Highland Park which net approximately \$3,000.00 annually. These concessions are given to the Zoological Society who retain the profits for the purchase of new animals.

The present funds for supplies are exhausted, and since it will require

\$2,000.00 to the end of the year, I would, therefore, recommend this bill be finally passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Pittsburgh, Pa.

President and Members

The City Council,

City of Pittsburgh.

Gentlemen:

You have before you now the departmental requests for 1941 appropriations.

Based upon the figures given me by the Controller and the City Treasurer, and taking into consideration the probable carry-over and cancelled appropri-

ations, I believe that there will be at the end of this year a small surplus. In this opinion, the Pennsylvania Economy League, which has reviewed the data, concurs.

For the year 1941, the aggregate of budgetary requests, including financing for capital improvements, which has heretofore been treated as a non-budgetary item, is \$27,731,195.54.

From this figure may be subtracted \$400,000 sinking fund surplus, and two items of capital expenditure totaling \$1,600,000.00 which should be financed. These are a \$500,000.00 note issued to supply funds for our W.P.A. improvement program, and \$1,100,000.00 in floating indebtedness which has been or will be incurred for street improvements, etc. This leaves the budget estimates at \$25,731,195.54.

Against this, revenues may be estimated and reasonably expected, as follows:

Current collections on real estate taxes, based on 90 per cent collections.....	\$15,816,000
Delinquent taxes	2,000,000
Miscellaneous revenues	6,260,000
Monies payable from the commonwealth on 1940 revenues retained	800,000
Expected return from Pittsburgh Housing Authority ..	255,000
Monies due from trustees of the Pittsburgh Railways Company, payable in 1941..	200,000
Carry over from 1940.....	400,000
Total	\$25,731,000

It will, therefore, not be necessary for the Council to increase the millage for 1941.

I believe that these estimates of 1941 income are conservative and fully capable of realization. It is possible that with the current improvement in business conditions, and the cumulative effects of the delinquent tax campaign, which the city solicitor is ably directing, that they may be exceeded.

The city's fiscal situation may be further improved by the expectation that the state will assume its statutory obligation of taking over the cost of the

2,600 mental patients who constitute two-thirds of the inmate population of Mayview. That this will be accomplished is a definite possibility because a decision of the Supreme Court of the Commonwealth upholding the act, if the court so views the circumstances, will make it impossible for the state to evade its obligation without further legislative action—in which I do not expect the House to concur.

It appears that the present financial situation of the city is the happiest which has prevailed since the onset of the depression. We are furnishing a record volume of services, at a millage lower than that prevailing in other years of comparative prosperity, on an assessment base which has been drastically reduced by more than \$200,000,000, and we are providing an operating pay-as-you-go budget without deficit financing.

Carrying charges on the city's debt are showing a gratifying yearly decline, and the debt itself is being gradually reduced.

Meanwhile, a tremendous improvement in the city's capital plant has been achieved.

One accomplishment of 1940, which I am sure must gratify the members of council as much as it does the executive, is the success achieved by our system of municipal collection and disposal of garbage and rubbish, which is achieving a very substantial saving to the city.

Needless to say, the development of other sources of revenue and the removal of exemptions now enjoyed by public utility real estate—both courses requiring legislative action—would greatly improve the city's financial status and aid it in meeting the demands for increasing services with which every city is faced.

The council would perform a public service by putting itself on record in favor of such proposals, and it would also be far-sighted in appointing special sub-committees to survey the city's physical plant, to the end that needed repairs and improvements in equipment are not postponed until the costs of replacement greatly exceed the cost of maintenance repairs.

In closing, may I take this opportunity to thank the department heads and their assistants, the city controller and his deputy, and the members of council who have earnestly given of their time, energy and knowledge to the purpose that the city will be soundly financed in 1941.

Very truly yours,
CORNELIUS D. SCULLY,
Mayor.

December 9, 1940.

President and Members,
City Council,
City of Pittsburgh.

Gentlemen:

At a meeting of the Committee on

Finance, held December 3, 1940.

Bill No. 2004—"An Ordinance making an emergency appropriation of \$55,000.00 for repairing and reconstructing sewers and appurtenances on Hermitage street, North Lang avenue, etc."

was affirmatively recommended subject to a complete report from the Budget Controller.

Bill No. 2004 now before Council for final passage is an ordinance making an emergency appropriation of \$55,000.00 for repairing and reconstructing sewers and appurtenances on Hermitage street, North Lang avenue, Kedron avenue and on private property between points about 350 feet East of Homewood avenue on Hermitage street and extending 300 feet from the westerly terminus of Kedron avenue, a total length of approximately 2728 lineal feet.

This emergency appropriation of \$55,000.00 is requested in order to permit the department to make immediate repairs and to reconstruct certain portions of the above named sewers which were damaged by an explosion on the night of November 27, 1940, the cause of which is yet to be determined.

This appropriation would provide for the immediate repair and reconstruction of approximately 2000 lineal feet of the total of 2728 lineal feet damaged and the balance of 728 feet would be repaired and reconstructed at a later date, since it is considered by the department that the remaining portions of the sewer is not in any immediate danger of collapse.

No estimate of the additional funds required to complete the entire damage has been furnished by the department.

In compliance with the request of the Finance Committee, "that a complete report be furnished in this case," I have made a personal inspection of the sewer as outlined in this report which was damaged by explosion. This inspection was made last Friday, December 6, 1940.

In order to determine as near as possible the total damage done and the necessity, if any, that an emergency exists wherein immediate repairs are necessary, this inspection was made.

The sewer damaged by explosion is part of the Negley Run Drainage Basin, being a relief sewer for the Homewood

section and was constructed in 1921.

The sewer damaged by explosion consists of 340 lineal feet of 30 inch terra cotta, 690 feet of 42 inch brick and 1698 feet of 48 inch brick, or a total of 2728 lineal feet.

The 48 inch sewer extends across the Westinghouse Playground, then along Kedron avenue to North Lang avenue; thence along Lang avenue to the intersection of Hermitage street. At this point, the sewer is reduced to a 42 inch brick sewer which extends along Hermitage street to Homewood avenue, and from Homewood avenue to Sterrett street the sewer is constructed of 30 inch terra cotta pipe.

My inspection made last Friday revealed that there were no obstructions in the sewer at that time and that a normal dry weather flow of about six inches of water prevailed, however, the sewer was found to be severely damaged throughout its entire length as herein defined.

The 30 inch terra cotta sewer on Hermitage street between Sterrett street and Homewood avenue is badly broken and distorted and should be reconstructed immediately.

The 42 inch brick sewer between Homewood avenue and Lang avenue is cracked at the center line of the arch and at the spring line. This is not in a dangerous condition at this time, except for a distance of approximately 150 feet from the corner of Lang avenue, which should be reconstructed, and the balance can be done within a few months as it is not an emergency.

The 48 inch brick sewer, extending from the corner of Hermitage street and Lang avenue to within approximately 180 feet of the interception chamber on the property of the Board of Education, is in dangerous condition and should be reconstructed as quickly as possible. This involves the reconstruction of approximately 1518 feet of this sewer.

This 48 inch sewer is severely cracked at the spring line and at the center line of the crown and in many places the floor of the invert is fractured. The crown of the arch is in a collapsible condition in many places which permits the infiltration of water at large openings at the spring line and at the cen-

ter line of the crown. House laterals have been destroyed so that the drainage from that source finds its way into the sewer through the large openings in many places. This 48 inch brick sewer should be replaced immediately and would consider this an emergency. About 20 manholes and catch basins have been damaged and must be reconstructed.

The force of the explosion forced the street paving upward directly over the sewer as much as four to six inches and in many places for considerable width, and in some locations the curb has been distorted. These street surfaces must be replaced, but since the time of year does not permit this construction, that part of the work must be delayed until spring, and is not an emergency.

While there is at present a normal dry weather flow through the sewers and while there is no interference with the normal flow at this time, a more serious condition would obtain if these sewers were surcharged by heavy rains and thaws.

In summing up the emergency in this case, I must advise that an extreme emergency does exist even with normal flow and more so in case of heavy rains and thaws, and it would not be advisable to delay four to five weeks, the time necessary, to advertise for proposals and to award a contract in the usual way.

The items involved in this emergency work have been checked with the department and it is agreed the cost should not exceed \$47,000.00, this estimate is based upon actual bids received for similar items within the past few months. The balance of the work to be done will cost approximately \$48,000.00, or a total cost of \$95,000.00.

The balance of the work to be done at a later date would involve the reconstruction of 540 feet of 42 inch sewer and 180 feet of 54 inch sewer, also approximately 4700 sq. yards of repaving.

Finally, I desire to advise that an extreme emergency does exist for part of the repair and reconstruction outlined in this report and would recommend that this appropriation be reduced to \$50,000.00 and the bill so amended and finally passed.

I would recommend that for the balance of the work to be done at a later date, the department be instructed to prepare plans at once and proceed in due time to ask for proposals and award contracts in the usual manner.

Respectfully yours,

RICHARD NEFF,
Budget Controller.

Mr. President:—In respect to the ordinance providing for an agreement between the City of Pittsburgh and the Housing Authority of Pittsburgh, I wish to report that about 25 per cent. of the property to be developed by the Housing Authority is within the territory served water by the South Pittsburgh Water Company. The line runs through the property of the Housing Authority. It is the purpose of the Housing Authority to have the South Pittsburgh Water Company waive its right under its franchise to serve this territory, or in the absence of their refusal, to go before the Public Utility Commission of Pennsylvania for an order to release the Water Company from its rights in that territory. The Housing Authority pays for water at the regular city rates, and we prefer to purchase the water from the City. The plan for this project has been approved by the Housing Authority in Washington, and we are ready to

proceed with work on the same, and would not like to see action on this ordinance delayed. I would suggest that Council pass the ordinance and let the Housing Authority carry on the negotiations with the Water Company, as it is satisfied that an amicable arrangement can be worked out between the Authority and the Water Company.

No. 2102.

Pittsburgh, Pa.
December 24, 1940.

President and Members,
City Council,
Pittsburgh, Pa.
Gentlemen:—

After a conference with Mr. Barry,

Superintendent of the Asphalt Division of the Bureau of Highways and Sewers, I am prepared to recommend that the following action be taken:

That \$15,000.00 be appropriated out of the \$200,000.00 set up for the Asphalt Plant for the purpose of maintaining the skeleton force for the plant during the months of January, February and March, 1941. This force is necessary to take care of emergency work on the streets during these months and to furnish asphalt to the Bureau of Highways and Sewers for cold-patch work.

The following is a list of the personnel required and the amount of money necessary to pay the same:

Superintendent	\$ 920.00
Plant Foreman	447.50
Four Street Foremen	1,990.00
Clerk	495.00
One Chief Engineer	759.00
One Engineer	693.00
Three Truck Drivers	1,287.00
Laborers (1260 man days)	6,615.00
	\$13,206.50

In addition to the above, one car load of coal tar is required for cold-patch work at a cost of \$900.00, and sufficient money to pay the gas and electric light cost for these three months, as the asphalt plant pays the cost of the gas and electricity for the Public Works garage.

Respectfully yours,
GEORGE E. EVANS.

Which was read, received and filed.

The Chair said:

Gentlemen:—As I understand the situation, the appropriation is already there against which the City Controller can charge anything for the Asphalt Plant. However, there is no definite setup of personnel to operate the plant. In order to keep the asphalt plant in operation it will only be necessary to adopt a motion directing the head of the department to engage the people named in Mr. Evans' letter pending a later amendment to the salary ordinance.

Mr. Wolk moved

That it is the sense of Council to approve the contents of the letter of

Councilman Evans for the maintenance and operation of the asphalt plant for the months of January, February and March, 1941, with the change in figures, as submitted by Mr. Barry, as follows:

Superintendent	\$ 919.98
Plant Foreman	447.48
Four Street Foremen	1,789.92
Clerk	495.00
One Chief Engineer.....	666.00
One Engineer	561.00
Three Truck Drivers.....	1,287.00
Laborers (1680 man days).....	8,820.00
Coal Tar for Cold-patching.....	1,050.00

and that proper legislation be prepared to keep the Asphalt Plant in operation in accordance with the setup set forth in Mr. Evans' letter and the figures as amended.

Which motion prevailed.

The Chair also presented

No. 2103.

Pittsburgh, Pa.

December 27, 1940.

To the President and
Members of Council,
City of Pittsburgh.
Gentlemen:—

In connection with the appropriation ordinance for the year 1941, it is requested that authority of Council be granted to the City Controller to carry forward to the year 1941 the amounts encumbered against the 1940 appropriations as follows:

Code Account 1051—Equip- ment	\$1,800.00
--	------------

This amount represents an encumbrance for a water-billing machine purchased in the year 1939, which has never been accepted or paid for by the Department of City Controller for the reason that the machine was found unsatisfactory and not capable for the work intended. It is expected that this matter will be finally adjusted in the coming year and as the balance has been appropriated from the year 1939 to the year 1940, it is requested that the same procedure be followed for the year 1941.

Code Account 1046—Salaries, Regular Employees

Code Account 1047—Wages, Temporary Employees

An estimate discloses that there will be approximately \$3,000.00 remaining in these two code accounts. It has been found necessary to employ, through the Burroughs and Addressograph Agencies, certain employees to speed up the tax billing for the year 1941. The employment of these people was necessary at this time for the reason that it was impossible to get the books from the Assessors' office until very late this month and the addressograph plates could not be embossed, thus delaying the writing of the tax bills. It is, therefore, necessary for us to have this extra money for services of additional help during the tax billing period.

Respectfully submitted,

EDWARD R. FREY,

City Controller.

Which was read, received and filed.

Mr. Wolk moved

That the balances be carried over as requested.

Which motion prevailed.

Mr. Demmler presented

Gentlemen:—

At a meeting of the Finance Committee of Council of the City of Pittsburgh held November 19, 1940, a motion was unanimously adopted authorizing the City Controller to negotiate an agreement with the Board of Public Education covering services by the City to the School Board for the year beginning January 1, 1941. The services are for rendering tax bills, collecting current and delinquent taxes, liening delinquent taxes, and miscellaneous services.

Several meetings have been held by the representatives of the School Board and the City Controller and a compromise proposal has been offered by the School Board in the amount of \$55,000. The estimated amount of these services as prepared by the City Controller was \$64,795.94. The charge for prior years since 1927 has been \$37,000.

It is my opinion that the proposal of

After a conference with Mr. Barry,

Superintendent of the Asphalt Division of the Bureau of Highways and Sewers, I am prepared to recommend that the following action be taken:

That \$15,000.00 be appropriated out of the \$200,000.00 set up for the Asphalt Plant for the purpose of maintaining the skeleton force for the plant during the months of January, February and March, 1941. This force is necessary to take care of emergency work on the streets during these months and to furnish asphalt to the Bureau of Highways and Sewers for cold-patch work.

The following is a list of the personnel required and the amount of money necessary to pay the same:

Superintendent	\$ 920.00
Plant Foreman	447.50
Four Street Foremen	1,990.00
Clerk	495.00
One Chief Engineer	759.00
One Engineer	693.00
Three Truck Drivers	1,287.00
Laborers (1260 man days)	6,615.00

\$13,206.50

In addition to the above, one car load of coal tar is required for cold-patch work at a cost of \$900.00, and sufficient money to pay the gas and electric light cost for these three months, as the asphalt plant pays the cost of the gas and electricity for the Public Works garage.

Respectfully yours,
GEORGE E. EVANS.

Which was read, received and filed.

The Chair said:

Gentlemen:—As I understand the situation, the appropriation is already there against which the City Controller can charge anything for the Asphalt Plant. However, there is no definite setup of personnel to operate the plant. In order to keep the asphalt plant in operation it will only be necessary to adopt a motion directing the head of the department to engage the people named in Mr. Evans' letter pending a later amendment to the salary ordinance.

Mr. Wolk moved

That it is the sense of Council to approve the contents of the letter of

Councilman Evans for the maintenance and operation of the asphalt plant for the months of January, February and March, 1941, with the change in figures, as submitted by Mr. Barry, as follows:

Superintendent	\$ 919.98
Plant Foreman	447.48
Four Street Foremen	1,789.92
Clerk	495.00
One Chief Engineer.....	666.00
One Engineer	561.00
Three Truck Drivers.....	1,287.00
Laborers (1680 man days).....	8,820.00
Coal Tar for Cold-patching.....	1,050.00

and that proper legislation be prepared to keep the Asphalt Plant in operation in accordance with the setup set forth in Mr. Evans' letter and the figures as amended.

Which motion prevailed.

No. 2103.

Pittsburgh, Pa.

December 27, 1940.

To the President and
Members of Council,
City of Pittsburgh.
Gentlemen:—

In connection with the appropriation ordinance for the year 1941, it is requested that authority of Council be granted to the City Controller to carry forward to the year 1941 the amounts encumbered against the 1940 appropriations as follows:

Code Account 1051—Equipment	\$1,800.00
-----------------------------------	------------

This amount represents an encumbrance for a water-billing machine purchased in the year 1939, which has never been accepted or paid for by the Department of City Controller for the reason that the machine was found unsatisfactory and not capable for the work intended. It is expected that this matter will be finally adjusted in the coming year and as the balance has been appropriated from the year 1939 to the year 1940, it is requested that the same procedure be followed for the year 1941.

Code Account 1046—Salaries, Regular Employees

Code Account 1047—Wages, Temporary Employees

An estimate discloses that there will be approximately \$3,000.00 remaining in these two code accounts. It has been found necessary to employ, through the Burroughs and Addressograph Agencies, certain employees to speed up the tax billing for the year 1941. The employment of these people was necessary at this time for the reason that it was impossible to get the books from the Assessors' office until very late this month and the addressograph plates could not be embossed, thus delaying the writing of the tax bills. It is, therefore, necessary for us to have this extra money for services of additional help during the tax billing period.

Respectfully submitted,

EDWARD R. FREY,
City Controller.

Which was read, received and filed.

Mr. Wolk moved

That the balances be carried over as requested.

Which motion prevailed.

Mr. Demmler presented

No. 2104.

December 24, 1940.

To the Chairman and Members of the
Finance Committee of Council,
City of Pittsburgh.
Gentlemen:—

At a meeting of the Finance Committee of Council of the City of Pittsburgh held November 19, 1940, a motion was unanimously adopted authorizing the City Controller to negotiate an agreement with the Board of Public Education covering services by the City to the School Board for the year beginning January 1, 1941. The services are for rendering tax bills, collecting current and delinquent taxes, liening delinquent taxes, and miscellaneous services.

Several meetings have been held by the representatives of the School Board and the City Controller and a compromise proposal has been offered by the School Board in the amount of \$55,000. The estimated amount of these services as prepared by the City Controller was \$64,795.94. The charge for prior years since 1927 has been \$37,000.

It is my opinion that the proposal of

the School Board to pay \$55,000 should be accepted for the reason that it is about 84% of the amount claimed, and for the further reason that it will be practically impossible to get the School Board to agree to a higher rate prior to the time of mailing the tax bills in January.

If the City should refuse to mail the tax bills for the School Board it may create a very undesirable situation from the standpoint of the taxpayers, many of whom will desire to take advantage of the discount allowance in January.

Respectfully submitted,

EDWARD R. FREY,

City Controller.

Which was read, received and filed.

Mr. Wolk moved

That Council approve the agreement of the Board of Public Education covering services by the City for the year 1941.

Which motion prevailed.

The Chair also presented

No. 2105.

December 27, 1940.

The Honorable, The President and Members of City Council.
Gentlemen:—

The case of Harry Bowles v. City of Pittsburgh, in the Court of Common Pleas at No. 1401 July Term, 1935, was appealed to the Supreme Court, and we recently submitted the record of the case to the Riverside Press to be printed.

We are now advised that the earliest possible date of delivery of the printed record will be January 4, 1941, and the charges for same will be approximately \$750.

May I therefore suggest that Your Honorable Body authorize the City Controller to carry over from this year's balance to the year 1941 the sum of \$750 in our Supplies Account, No. 1078.

Very truly yours,

WM. ALVAH STEWART,

City Solicitor.

Which was read, received and filed.

Mr. Kilgallen moved

That the balance be carried over as requested.

Which motion prevailed.

Mr. Wolk arose and said:

Mr. President:—While we are waiting for the copies of the printed salary ordinance, I want to make this motion, which is merely an extension of the motion I made earlier this year for budget control.

Mr. Wolk moved

That each of the department heads be required to submit, on or before January 31, 1941, to the Finance Committee of Council, three copies of an estimate of the amount to be encumbered in each of the four calendar quarters of the fiscal year 1941 from the amount appropriated to each code account, with the exception of the code accounts for salaries and wages, on a form to be prescribed by the Budget Controller, according to the following instructions:

1. The appropriation for each code account is to be divided into code classes and each code class is to be supported by a detailed list of commodities, units, estimated unit prices and estimated costs, within each code class, similar to the Detail of Departmental Estimates prepared on Form C-134 for the Annual Departmental Estimates.

2. These estimates shall also show for each commodity in four additional columns, one for each calendar quarter of the fiscal year, the calendar quarter in which the code account is to be encumbered for such commodity.

3. The totals for the code classes are to be summarized showing the amount to be encumbered in each quarter for each code class, as well as the total amount to be encumbered in each quarter for each code account.

4. In view of the fact that the appropriation ordinance for 1941 provides that all encumbrances incurred prior to January 1, 1941, for which services have not actually been rendered or supplies, materials or equipment actually delivered prior to December 31, 1940, should be charged to the 1941 appropriation accounts, each department should ascertain the amounts of such encumbrances and charge them as encumbrances for the first quarter of 1941.

5. The department heads may submit such additional data which they feel will justify their program of quarterly encumbrances.

6. Code accounts mean the code symbols which are set forth in the ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh for the fiscal year 1941.

7. Code classes mean the classifications promulgated February 1, 1913, and known as Standard Code Classification of Expenditures.

Mr. Wolk said:

I don't intend to make any extended remarks. All we intend to accomplish by this motion is real scientific budget control. It is our intention to have a closer control of budget expenditures in 1941, and to force the departments to live within the amounts of money allotted in each code account, and I am requesting them to give the Finance Committee certain detailed information which will make our task in the future less burdensome.

And the question recurring on the adoption of the motion as offered by Mr. Wolk,

The motion prevailed.

The Chair stated

That the copies of the salary bill had not yet arrived from the printer and if there were no objections, Council would recess until 2:30 o'clock, P. M.

And there being no objections

Council recessed.

And the hour of 2:30 o'clock, P. M. having arrived, and the time of the recess having expired, Council reconvened and there were present:

Messrs.

Demmler	Leonard
Duff	Weir
Gallagher	Wolk
Kilgallen	O'Toole, (Pres't)

Absent:—Mr. Evans.

Mr. Demmler also presented

Bill No. 2067. An Ordinance entitled, "An Ordinance amending and supplementing Sections ----- of Ordinance No. 618, entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof,' which became a law January 9, 1939, as amended and supplemented."

In Finance Committee, December 23, 1940, bill read and amended by inserting "Section 1," and in the title by inserting the numbers "2, 6, 7, 8, 9, 10, 12, 16, 18, 23, 24, 25, 26, 28, 29, 30, 32, 33, 36, 38, 40, 42, 43, 44, 46, 47, 48, 49-A, 49-C, 49-D, 50, 53, 54, 56, 57, 58, 59, 60, 69, 70, 71, 74, 77, 83, 89," and as amended ordered returned to Council with an affirmative recommendation.

Which was read

Mr. Demmler moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in Committee and agreed to by Council, was read.

Mr. Demmler moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Duff moved

To amend the bill in item "Section 60, Mechanical Division," by striking out the words, "Master Mechanic, \$3,680.00 per annum."

Which motion prevailed.

And the bill as read a second time and amended, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Demmler	Leonard
Duff	Weir
Gallagher	Wolk
Kilgallen	O'Toole, (Pres't)

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Weir moved

That Council adjourn to meet at the call of the Chair.

Which motion prevailed.

And

Council adjourned.

AN ORDINANCE—Providing for joint bidding at Sheriff's Sale for Delinquent taxes by the City of Pittsburgh, the County of Allegheny and the School District of the City of Pittsburgh and authorizing the execution of an agreement.

WHEREAS, proceedings are being conducted by the Law Department for the collection of Delinquent taxes under the provisions of the Act of May 16, 1923, P. L. 207, providing for an upset bid price and the divestiture of liens and mortgages at a second Sheriff's Sale fixed by the Court, and

WHEREAS at such second Sheriff's Sale competitive bidding may appear and jeopardize the combined tax claims of the City of Pittsburgh, the County of Allegheny and the School District of Pittsburgh, Therefore,

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That provided the proper officers of the County of Allegheny and the School District of Pittsburgh, by appropriate action, authorize the execution of the following agreement; the Mayor, the Delinquent Tax Collector and the Director of the Department of Lands and Buildings are hereby authorized and directed to enter into an agreement with the County of Allegheny and the School District of the City of Pittsburgh, in manner and form as follows:*

AGREEMENT

MADE this _____ day of _____, 1940, between the CITY OF PITTS-

BURGH, a municipal corporation of the State of Pennsylvania, party of the first part, the SCHOOL DISTRICT OF PITTSBURGH, a quasi-municipal corporation of said State, party of the second part, and the COUNTY OF ALLEGHENY, a quasi-municipal corporation of said State, party of the third part;

WITNESSETH, Whereas the City of Pittsburgh, the School District of Pittsburgh and the County of Allegheny are desirous of increasing the collection of Delinquent taxes, and to this end propose to institute proceedings on tax claims with a view to selling the real estate subject to such taxes at Sheriff's Sale in accordance with the provisions of the Act of 1923, P. L. 207, as amended; and,

Whereas it is the intention of the parties hereto that none of the three taxing bodies shall obtain any advantage over the others by reason of the divestiture of their respective tax claims.

NOW, THEREFORE, IT IS MUTUALLY AGREED AS FOLLOWS:

FIRST: In any Sheriff's Sale which may be brought about by proceedings instituted under existing laws by any of the parties hereto, the solicitor for the plaintiff in the writ will bid an amount sufficient to pay the costs thereon, and if there be other bidders, he shall continue the bidding until the bid is sufficient to pay costs and taxes on the property being sold.

SECOND: If the plaintiff in the writ should be the successful bidder, the Sheriff's deed shall be made to the City of Pittsburgh, the School District of Pittsburgh and the County of Allegheny as their interests may appear.

THIRD: Where title is taken in the name of the three taxing bodies and the sale is for an amount in excess of the costs on the writ, then each of the solicitors representing the parties hereto is authorized to receipt to the Sheriff for the amount of any liens which are divested and which would be payable to the taxing body represented by him in accordance with the provisions of the Act of 1846, P. L. 411.

FOURTH: After any real estate shall have been taken over at Sheriff's Sale by the three parties to this Agreement, the interest of each of the parties therein shall be in proportion to the amount of their respective claims against

the property; and if the property should later be sold for an amount which is insufficient to pay these claims in full, the net proceeds of the sale shall be apportioned to the parties hereto in accordance with the provisions of the Act of 1937, P. L. 787. If the property be sold for an amount which is more than sufficient to pay these claims in full, then the net proceeds of the sale shall be divided among the parties hereto in proportion to their respective claims.

FIFTH: If any property taken over by the three parties to this agreement should be an income producing property, it is mutually agreed that the Department of Lands and Buildings of the City of Pittsburgh shall manage said property and keep accurate records of all receipts and expenditures, which records shall at all times be open to inspection by the respective solicitors of the School District of Pittsburgh and of the County of Allegheny, or by any person authorized by either of them. The Department of Lands and Buildings shall receive a commission of five per cent (5%) on all income received from any such property, and the net amount remaining after deducting carrying charges and proper expenses shall in all cases be applied in accordance with the provisions of Section 29 of the Act of 1923 as amended by the Act of 1937, P. L. 1733.

SIXTH: This Agreement shall have no application to sales of property located outside the corporate limits of the City of Pittsburgh, but is intended to apply to all tax sales of property within the City limits whether or not the sale is designed to accomplish the divestiture of all liens. It is mutually agreed by and between the parties hereto that no property will be sold at a tax sale unless taxes are three or more years delinquent and unpaid.

SEVENTH: All real estate, title to which has been taken in the names of the three parties hereto in accordance with the terms of this Agreement, shall be sold as soon as possible after the time for redemption has passed for a price and upon terms agreeable to all the parties.

EIGHTH: This Agreement shall continue in force until terminated by mutual consent of the parties hereto; provided, however, that any party may

withdraw by giving notice in writing to the other parties of an intention so to do. Such withdrawal shall not affect the rights of the withdrawing party which have been acquired under this Agreement up to the date of withdrawal, and thereafter the Agreement shall continue in force as between the remaining two parties with like effect as if the original Agreement had been executed by these two parties only, and titles acquired at tax sales shall be taken in the name of these two parties. Either of the remaining parties may terminate the Agreement at any time by giving written notice to the other party.

WHEREAS, The City is the owner of a certain tract of land located on Parkfield street and Park boulevard in the Twenty-ninth Ward of said City and known as Phillips Park; and

WHEREAS, The City has maintained on a portion of said tract of land an athletic field or recreation center, and it is now the desire of both parties to this agreement that this recreation center be further developed for the use of both of said parties, as a public recreation center, and plans have been prepared by the Superintendent of Buildings of the School District showing the work to be done and the facilities to be provided in connection with said development, which plans consist of seven sheets designated "plot plan," "bleachers," "field house," "field and field house plumbing," "heating, plumbing and electric work—field house," "standard chain fence" and "standard flagpole," and are further identified by the signature of the Director of the Department of Public Works of the City and by the signature of the Superintendent of Buildings for the School District.

NOW, THEREFORE, IT IS MUTUALLY AGREED AS FOLLOWS:

1. In consideration of the grant by the City to the School District of the use of that portion of Phillips Park shown on the plot plan above referred to, which use is further defined herein, the School District agrees at its own expense to develop said recreation center by the erection of a field house, bleachers, fence, flagpole and other improvements in accordance with the plans above referred to, which plans are hereby made a part of this agreement and are to be considered as an integral part of this contract. The City shall do such planting and landscaping as may be required outside

the plant, and shall keep in proper repair the various roads, walks, steps and approaches leading to the plant.

4. It is the desire and intention of both parties to this agreement that during the time these recreation facilities are not being used by the School District, they shall be available to the largest degree for recreational activities of the Community. These activities, however, shall be properly supervised and controlled by the granting of permits as herein provided. Each of the parties shall furnish at its own expense its own athletic directors and play supervisors.

THIS AGREEMENT

MADE and entered into the _____ day of _____, 1940, by and between the COMMONWEALTH OF PENNSYLVANIA, acting through the Secretary of Highways, hereinafter called "Commonwealth," party of the first part; and

the COUNTY OF ALLEGHENY, acting through its Board of County Commissioners, hereinafter called "County," party of the second part; and the CITY OF PITTSBURGH, a municipal corporation of the Commonwealth of Pennsylvania, hereinafter called "City," party of the third part;

W I T N E S S E T H :

WHEREAS the Commonwealth has constructed and widened Bigelow boulevard (State Highway Route No. 228),

which construction terminates at Station 51 + 91.04; and

WHEREAS it was the original intent of the Commonwealth and the City to carry said widening and reconstruction of Bigelow boulevard to the westerly side line of the intersection of Seventh avenue and Bigelow boulevard in the City of Pittsburgh; and

WHEREAS it is mutually agreed by all parties hereto that it would be to their mutual advantage and to the advantage of the traveling public that said highway be constructed to said westerly side line of Seventh avenue in such a manner that a traffic grade separation be located at the intersection of Seventh avenue and Bigelow boulevard, and that certain intersecting streets be widened and reconstructed in connection therewith; and

WHEREAS the County's Study Plan No. 1746 for the extension of Bigelow boulevard, with the traffic grade separation, and the reconstruction of intersecting streets, lends itself to the ultimate development of certain other thoroughfares in the immediate vicinity; and

WHEREAS the County is authorized by the Act of 1919, P. L. 450, and its amendments, to appropriate and expend money for the construction of any State Highway or any public highway, including property damages, upon approval of the Secretary of Highways so to do; and

WHEREAS the City of Pittsburgh, by Ordinance No. 479, approved September 14, 1939, recorded in Ordinance Book Volume 50, Page 235, granted to the Board of County Commissioners of the County of Allegheny and the Commonwealth of Pennsylvania the right to enter into the City of Pittsburgh for the purpose of constructing Bigelow boulevard extension, State Highway Route No. 228, from the present construction termination at Station 51 + 91.04 to the westerly side line of Seventh avenue and Bigelow boulevard from the westerly side line of Seventh avenue to Sixth avenue, and in connection therewith to construct a traffic grade separation at the intersection of Bigelow boulevard and Seventh avenue.

NOW, THEREFORE, THIS AGREEMENT WITNESSETH:

FIRST: The Commonwealth agrees to prepare all necessary plans for the construction of the proposed improvement in substantial conformity with Study Plan No. 1746 of the County of Allegheny entitled "Proposed Extension Bigelow Boulevard Improvement," a copy of which is attached hereto and made part hereof; to make all surveys necessary for the proposed improvement and to prepare such plans, except detailed surveys and plans of private property, as may be necessary for the City to ordain and enact such legislation as may be required for the establishment of right-of-way lines and the establishment of grades for the proposed improvement; to furnish and pay for all engineering work essential and necessary for the preparation of plans for construction of the proposed improvement. On the County's Study Plan No. 1746, the limits of permanent work are indicated in yellow, and the limits of temporary work are indicated in red. All of the above plans shall be submitted to and approved by the City and the County prior to the letting of contracts for the proposed work. Any changes that the Commonwealth may desire to make in the plans subsequent to the approval by the City and County shall first be submitted to and approved by the City and County before such change is incorporated in the plans.

SECOND: The Commonwealth agrees to include in its contract all of the work to be constructed from Station 51 + 91.04 to the abutment at the westerly side line of Seventh avenue, including both that work designated on the Study Plan as permanent and that designated as temporary, including intersecting streets, and to advertise, receive bids and award a contract for the entire work to be constructed, both permanent and temporary, except any work involved in property damage and public utility structures and work to be constructed by the County under this agreement, to the lowest responsible bidder.

THIRD: The Commonwealth agrees that it will, upon the letting of a contract for the work, carry on and prosecute the same to completion. The Commonwealth agrees that in the first instance it will pay for the entire cost

of the work necessary for the proposed improvement exclusive of property damage, work to be performed by public utilities and work to be performed by the County, and upon completion of the improvement, will furnish the county final certified estimates showing the amount of work performed and the amount due from the County, and the County agrees to pay the amount so shown to be due from the County within thirty days from the date of the receipt thereof and to pay interest on said amount or any portion thereof remaining unpaid by said County for a period of thirty days after the receipt of said certification and statement of the same by the County. The total estimated cost of all work to be performed by the Commonwealth as provided herein is the approximate sum of Three Hundred Twenty-nine Thousand (\$329,000.00) Dollars and the estimated cost of the work for which the County will reimburse the Commonwealth, as provided herein, is the approximate sum of Seventy-five Thousand (\$75,000.00) Dollars. The total estimated cost of all work for which the County will reimburse the Commonwealth as provided for herein, and for work to be performed by the County in connecting the work provided for in this agreement to existing thoroughfares, including property damages, is the approximate sum of Eight Hundred and Fifty Thousand (\$850,000.00) Dollars, and the estimated amount for which the City will reimburse the County, as provided herein, is the approximate sum of Two Hundred Thousands (\$200,000.00) Dollars.

FOURTH: The Commonwealth agrees to furnish the County with copies of all estimates for payment of work performed by the successful bidder or bidders, and the Commonwealth agrees to indicate on each estimate that portion of the work which has been performed for the County. The Commonwealth agrees that the County shall have the right to check each and every individual estimate prior to the payment of the same by the Commonwealth. The Commonwealth further agrees that no interest will be charged the County upon any monthly or semi-monthly estimate rendered.

FIFTH: It is agreed that the Commonwealth shall have full and complete charge of the work. The Commonwealth agrees that the City and the County shall have the right to place engineers and inspectors on the site of the proposed work at their own cost and expense for the purpose of protecting both the City's and County's interests in said work. Any complaint that the City or County may have as to the method of work or materials used shall be made to the district representative of the Secretary of Highways. The Commonwealth agrees that any justifiable complaint made by the County or City shall be immediately corrected in conformity with the approved plans and specifications.

SIXTH: It is mutually agreed that the cost of the work embraced within the contract or contracts aforesaid to be let by the Commonwealth shall be borne as follows:

(a). The Commonwealth agrees to assume and bear all of the cost of the construction of the roadway improvement and appurtenances between the faces of the curbs within the limits indicated in the plan for permanent construction as newly established and provided by the plan aforesaid between Station 51 + 91.04 and Station 39 + 78 at the westerly line of Seventh avenue. The Commonwealth will contract and pay for the entire superstructure of the bridge spanning Seventh avenue within the area indicated on the plans for permanent improvement, resting upon the abutment along the west line of Seventh avenue, which shall be constructed by the County. The Commonwealth further agrees that it will bear the cost of the necessary permanent retaining wall along the north side of the permanent improvement and along the south side of the permanent improvement where it is necessary to support said permanent improvement, in no case to support a width of roadway greater than fifty-two (52) feet and less as indicated on the plans, all between the Stations above mentioned.

(b). The Commonwealth agrees to bear the entire cost of the repaving of Seventh avenue from the presently existing northerly side line of

Bigelow boulevard to the limits of the improvement on Seventh avenue, except that portion of Pentland street at its point of intersection with said Bigelow boulevard which is back of the curb line of Seventh avenue extended, the cost of which shall be the obligation of the County. Any additional paving on Seventh avenue such as temporary paving under the structure on Seventh avenue shall be provided for by the County.

(c). The County agrees that the portion of the work to be borne by the County in the area indicated for permanent work shall be the cost of the parapets which act as curbs, the regular curb construction, sidewalks and drainage structures outside of that portion of the drainage structures which may legally be borne by the Commonwealth.

(d). The County agrees to bear all of the cost of the work in the area designated in red on said plan as "temporary construction" to be performed from the westerly side of Seventh avenue, excluding the bridge spanning Seventh avenue designated on the plan as "permanent construction," to Station 48 + 29.62. The County further agrees to bear the cost of temporary cribbing retaining walls on the south side of the permanent improvement.

SEVENTH: The County agrees to contract for and bear all of the cost of the construction of the abutment at the westerly side line projected of Seventh avenue at the intersection of Seventh avenue and Bigelow boulevard, in accordance with plans prepared by, and the work to be done under the supervision of the Department of Highways. The County agrees immediately upon the execution of this agreement and the passage by the City of Pittsburgh of the necessary ordinances, to advertise, secure bids and award a contract for the construction of said abutment and carry on and prosecute the same to completion.

EIGHTH: The City agrees that it will enact all ordinances necessary for the Commonwealth or the County to enter into the City for the purpose of constructing the extension of Bigelow boulevard (State Highway Route No.

228), and the necessary intersecting streets.

NINTH: The City agrees to enact all ordinances necessary for the condemnation of property, establishment of grade and such other ordinances as may be required by the Commonwealth or the County to permit of the construction of said extension of Bigelow boulevard.

TENTH: The City agrees to give all necessary notices to fully advise all parties concerned, public or private, of the proposed improvement and to secure all necessary permits other than those which may be obtained by the Commonwealth for the construction of the proposed improvement.

ELEVENTH: Prior to the commencement of the work, the City will secure possession of and remove or cause to be removed all dwellings, buildings or other structures, as required by said plans.

TWELFTH: The City agrees to take all necessary action to require all private parties, utility and public service corporations, to make necessary alterations, repairs or adjustments to existing utility facilities and to install any new facilities, with their proper connections which may be required, and to take all necessary action to require all changes set forth herein to be made in strict conformity with the plans approved for said changes. The City further covenants and agrees to take all necessary action to require that the entire expense of all the work, adjustments and alterations, as set forth in this paragraph, be borne by the public utility concerned, and, in any event, that all of said work shall be at no expense to the County of Allegheny or the Commonwealth of Pennsylvania.

THIRTEENTH: It is mutually agreed by and between the City and County that the County will bear all of the property damage occasioned by the said improvement, conditioned, however, upon the City's payment to the County, upon demand by the County Controller, at any time subsequent to January 1, 1941, of the sum of Two Hundred Thousand (\$200,000.00) Dollars. The City further agrees that it will pay to the County a sum equal to all

taxes that may be outstanding against the properties affected and deducted for the City from any award of damages made to such property owner or owners.

FOURTEENTH: The City agrees, upon passage of the ordinance for the improvement aforesaid, to immediately prepare such Viewers' plan or plans and petitions for appointment of Viewers as may be necessary and to present the same to the proper Court for assessment of damages and benefits. All moneys received as benefits shall be solely for the use and benefit of the County.

FIFTEENTH: In the trial of all cases before the Board of Viewers or on appeals therefrom the City agrees that the County shall have the right to defend to final judgment all Viewers and other proceedings and appeals therefrom relating to said improvement, and the County agrees to defend to final judgment all Viewers and other proceedings and appeals therefrom relating to said improvement.

SIXTEENTH: The City agrees that it will, upon completion of all of the construction work on State Highway Route No. 228, assume full and complete maintenance of all of the work outside of the jurisdiction of the Department of Highways, and the County shall forever after be relieved of any responsibility for the maintenance thereof.

SEVENTEENTH: It is mutually agreed between all of the parties hereto that the execution of this agreement by the City shall be its application to the County for County aid in the construction aforesaid and the payment of property damages under the Act of June twelfth, 1919, P. L. 450, as last amended by the Act of April twelfth, 1939, P. L. 25, and that execution of this agreement by the County shall be its acceptance of said application and the granting of County aid, and that the execution hereof by the Commonwealth shall be its approval of the appropriation and expenditure by the County of County funds for the purposes aforementioned.

WHEREAS, there exist in the City of Pittsburgh unsafe and insanitary dwelling accommodations of a number greatly in excess of said two hundred thirty-five (235) dwelling units which are occupied by families of low income and which constitute a menace to the health, safety, morals and welfare of the inhabitants of the City of Pittsburgh; and

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the City of Pittsburgh shall enter into a Cooperation Agreement with the Housing Authority of the City of Pittsburgh in substantially the following form:*

COOPERATION AGREEMENT

1. The Housing Authority of the City of Pittsburgh (hereinafter called the "Authority") agrees to undertake, develop and administer a low-rent housing Project, known as Project PA-1-5, in the City of Pittsburgh (hereinafter called the "City") and to endeavor to secure a contract or contracts with the United States Housing Authority for Federal annual contributions to assist in the administration of such Project.

2. In consideration therefor the City agrees that, as a part of such Project, it will eliminate within one year of completion of the Project, in one or the other of the ways set forth below, under (a), (b) and (c), or partly in one way and partly in another, a number of unsafe or insanitary dwelling units within its jurisdictional limits, at least equal in number to the number of new dwelling units to be provided in said Project to be undertaken by the Authority, less the number, if any, of unsafe or insanitary dwelling units which will be eliminated on the site or sites of the Project by the Authority during the development thereof, but in no event to exceed two hundred thirty-five (235) unsafe or insanitary dwelling units:

- (a) By demolishing dwelling units which are on land acquired by the City by purchase or otherwise, including demolition of such dwelling units on land purchased for any public uses; or
- (b) By causing the compulsory demolition, effective closing, repair or improvement of such unsafe and insanitary dwelling units; or
- (c) By inducing private owners voluntarily to demolish or effectively close such dwelling units.

In computing the number of unsafe or insanitary dwelling units eliminated under the terms of this Agreement, there shall be included all unsafe or insanitary dwelling units eliminated under this Agreement from the date hereof; provided, however, that all unsafe or insanitary dwelling units eliminated by the City prior to the date of this Agreement and subsequent to September 1, 1937 will be counted as elimination under this Agreement if it is satisfactorily established that such elimination was undertaken in anticipation of the execution of this Agreement or in anticipation of the development of the Project. For the purpose of this Agreement a dwelling unit shall be considered unsafe or insanitary whenever by reason of dilapidation, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, it is detrimental to safety, health or morals. The elimination required by this agreement shall be in addition to, and may not be a part of the elimination undertaken by

the City in connection with the development of USHA-aided Project Nos. PA-1-1, 1-2, and 1-3.

3. The City further agrees that during the period commencing with the date of the acquisition of any part of the site of the said Project and continuing throughout the useful life of such Project, it will not levy, impose or charge any taxes, special assessments, service fees, charges or tolls against the Project or against the Authority for or with respect to the Project. The City further agrees that it will furnish, without cost or charge to the Authority and the tenants of each Project the usual municipal services and facilities which are or may be furnished without cost or charge to other dwellings and inhabitants in the City, including but not limited to: fire, police and health protection and services, snow removal, garbage and trash collection and disposal, maintenance and repair of streets, roadways and curbs, maintenance and repair of street lighting equipment, maintenance and repair of water mains and their appurtenances, maintenance and repair of storm and sanitary sewers and their appurtenances, in or on public streets or ways now in existence, (or to be dedicated to and accepted by the City) within, leading to, or forming the boundaries of the Project; and the City will furnish, maintain and repair, without cost or charge to the Authority, the Project, or the tenants thereof, fire and police alarm and traffic systems complete, adequate to serve the Project in or on public streets or ways now in existence, (or to be dedicated to and accepted by the City) within, leading to, or forming the boundaries of the Project; and will provide, without cost to the Local Authority, at the boundary of the Project, storm and sanitary sewers and their appurtenances and water mains and their appurtenances, adequate to serve the Project, and streets including curbs, sidewalks and roadway pavement, adequate to furnish access to the Project. The term "useful life of such Project" as used in this agreement, shall mean the period of physical usefulness of the said Project for the purpose of providing dwelling accommodations, but in no event less than the number of years during which any of the bonds issued to aid in financing the

development of said Project or any bonds issued to refund such bonds shall remain outstanding.

4. The City further agrees to cooperate with the Authority by vacating such streets, alleys and other places within the area of the Project or adjacent thereto as may be necessary in the development of such Project, by accepting the dedication of land for new streets and alleys, by zoning or rezoning to a classification satisfactory to the Local Authority, any area in the City within which the Project shall be located, and by such other lawful action or ways as the City and the Authority may find necessary in connection with the development and construction of the Project. The City hereby grants the right to lay, install, and maintain, if necessary, any gas, water, or sewer laterals or branches or erect or install electrical conduits, wires, and poles, in, on, upon, across, over or under dedicated public streets, the laying out of such rights-of-way to be approved by the proper City Department or official, all at no cost or charge to the Local Authority.

5. The City and the Authority agree that this contract shall not be abrogated, changed or modified so long as any bonds issued to aid in financing the development of the Project to which this contract relates or any bonds issued to refund such bonds shall remain outstanding and unpaid and so long as the title to said Project (except for the lien or title conveyed to secure any bonds or other evidences of indebtedness issued to aid in the financing of the Project or to secure any bonds or other evidences of indebtedness issued to refund such bonds or evidences of indebtedness) is held by the Authority or some other public body or governmental agency authorized by law to engage in the development or administration of low-rent housing projects; and that this Agreement may be assigned for the protection of the purchasers of any bonds issued to assist in the development of the Project.

AGREEMENT

Made the _____ day of _____, A. D. 1940, between the Borough of Munhall, a municipal corporation of the State of Pennsylvania, hereinafter referred to as the "Borough," party of the first part,

and

the City of Pittsburgh, a municipal corporation of the State of Pennsylvania, hereinafter referred to as the "City," party of the second part.

WITNESSETH:

WHEREAS, the Borough of Munhall lies adjacent to the City of Pittsburgh, and

WHEREAS, the Borough has constructed a sanitary sewerage system known as the West Run Sanitary Sewer Trunk Line, and which drains and takes care of the sewage along West Run and the surrounding territory, and

WHEREAS, the portion of the 31st Ward of the City of Pittsburgh lying within the West Run Drainage Basin has no other system in which to drain and dispose of its sewage, and

WHEREAS, the West Run Sanitary Sewer Trunk Line as now constructed is large enough to take care of the City's sewage from the territory aforesaid.

NOW, THEREFORE, in order to permit the City to connect with the said West Run Sanitary Sewer Trunk Line and make use of the same for the disposal of its sewage, the City agrees as follows:

1. To pay to the Borough Seventy-five (\$.75) Cents per front foot for the proportionate share of the cost of construction of said Trunk Line, and to cover the proportionate share of the cost that may be due for repairs of an extraordinary nature caused by storms, breaks, etc., and to cover the proportionate share of the cost of the trunk sewer to be extended toward the Monongahela River down West Run to a new trunk sewer, and to cover a proportionate share of the depreciation cost of pumps, stations and a twelve (12) inch cast iron discharge line or any renewals or increase of facilities.

2. The share of operation costs to be divided by the number of houses on a basis of five people to a house, except apartment houses, where each apartment will be considered as a house and each person allowed 300 gallons per day.

3. The sewer connection or connections in the Borough of Munhall shall be made by the City at the entire cost and expense of the City.

4. That no storm water or water from roofs, and no insoluble solids of any kind, and no inflammable or volatile liquids, garbage, offal, ice, snow or slush shall at any time be thrown, dumped, or permitted to enter the sanitary sewer of the Borough of Munhall through the sewer or sewers to be constructed by the City in and from the aforesaid areas, and no connection shall be made and apparatus constructed which shall be intended for or shall render possible such entry. The violation of this provision may cause the Borough to disconnect the said sewers

until a repetition of the offense is provided against.

5. Before connection is made to the sewerage system of the Borough, the City shall pay to the Borough the sum equal to the total amount found by applying the rate of Seventy-five (\$.75) Cents per front foot of property represented by lots on which houses are already erected, and at the end of each month the City shall pay to the Borough the amount arrived at by applying the same rate per front foot of any lots on which additional houses are constructed and sanitary drainage is provided therefor and added to the City's Sanitary Sewer System.

6. The use of the West Run Sanitary Sewer Trunk Line and the connections therewith shall be in strict conformity with the laws of the Commonwealth and the requirements of the Commissioner of Health of the Commonwealth.

7. In making the connections, the City agrees that all trenches shall be entirely protected and safeguarded by barriers and lights and refilled and tamped to the same condition as before opening, and so maintained, and the City shall be liable for injury to the Borough's Trunk Line, or to any person or to any property by reason of or resulting from the connections aforesaid. 8. The Borough Engineer shall approve the sizes and kind of pipes to be used in the connections and the manner of laying pipes and connecting the joints at the point of intersection. The same formalities are required in case of repairs, alterations and additions as are required in making the original connection; and no such connections shall be constructed or made until plans and specifications have been submitted to the Sanitary Water Board and approved in accordance with the provisions of the Act of Assembly providing for such approval.

9. In case the Borough of Munhall shall hereafter either voluntarily or otherwise install a sewage disposal

AN ORDINANCE—Authorizing and directing the Mayor and the Director of the Department of Public Works to enter into an agreement, for and on behalf of the City of Pittsburgh, with the Township of Baldwin, fixing the share of the cost of construction, maintenance and repairs of a main trunk sanitary sewer in the Streets Run Drainage Basin, from the line dividing the City of Pittsburgh and Mifflin and Baldwin Townships to an outlet in Streets Run, at a point distant about 190 feet north of Riverton street, to be borne by the Township of Baldwin, and of any extension thereof; and its share of the cost of constructing, operating and maintaining a plant for the treatment or disposal of the sewage discharged by said main trunk sewer, as may be required in the future, and granting permission to said Township to connect with the said sewer, and providing for payment thereof.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to enter into an agreement, for and on behalf of the City of Pittsburgh, with the Township of Baldwin, in manner and form as follows:*

THIS AGREEMENT

Made and entered into this-----day of-----, 194--, by and between Township of Baldwin, hereinafter sometimes referred to as the "Township," party of the first part,

AND

City of Pittsburgh, hereinafter some-

times referred to as the "City," party of the second part, both being municipal corporations of the Commonwealth of Pennsylvania

WITNESSETH

WHEREAS, it is necessary in the interests of the public health that the sanitary sewage be removed from the section of Baldwin Township lying within Streets Run Drainage Basin, and

WHEREAS, in order to accomplish this purpose, it is necessary for said Township to construct branch trunk sewers and lateral sewers to the existing Streets Run trunk sanitary sewer, and

WHEREAS, the City of Pittsburgh has constructed the said sewer from the line dividing the City, Mifflin and Baldwin Townships, to a point near the Monongahela River, and

WHEREAS, the Township of Baldwin is desirous of connecting sanitary branch sewers to the sanitary trunk sewer constructed by the City, and

WHEREAS, it is mutually advantageous to the parties hereto, to use the trunk sewer constructed by the City to a point near the Monongahela River as a joint sewer.

NOW, THEREFORE, the parties hereto, for and in consideration of the mutual covenants and conditions hereinafter specified, do hereby agree as follows:

I.

The City agrees to permit the Township to discharge its sanitary sewage into the said trunk sanitary sewer and to carry the sewage discharged from Baldwin Township through the extension of said trunk sewer beyond the City Line.

II.

In consideration of this permission, the Township agrees to pay to the City the total sum of \$26,500.00, said sum being fixed as its share of the cost of constructing the trunk sanitary sewer through the City of Pittsburgh. This amount to be payable within sixty (60) days after completion of the first connection discharging sewage to the trunk sanitary sewer.

III.

The City agrees to maintain and keep in repair, said trunk sanitary sewer from the City line to a point near the

Monongahela River and the Township agrees to pay thirty (30%) percentum of the cost of said maintenance and repairs thereof, said amounts to be due and payable within thirty (30) days after presentation of a certified statement by the City to the Township. In event of any dispute as to cost of maintenance and repair, the decision of the Director of the Department of Public Works shall control.

IV.

It is understood and agreed by the Township that it shall not permit any other municipality, individual or corporation not located within the Township to discharge any sewage into the branch trunk sanitary sewers constructed by the Township as hereinafter provided, unless permission so to do is given in writing by proper authorities of the City.

V.

The Township agrees that no drainage other than sanitary or domestic drainage shall be admitted into any part of the said trunk sewer and that surface drainage and roof drainage shall be specifically excluded therefrom. Failure by the Township to conform to this provision shall render the entire contract voidable at the option of the City, and the City shall thereupon have authority to cancel this contract and exclude the Township and all residents thereof from further use of said sewer until the Township complies with this provision

VI.

The Township agrees that all sewer connections to said trunk sanitary sewer made by the said Township shall be without cost to the City of Pittsburgh, and that plans, specifications and construction of the said sanitary branch and lateral sewers be subject to the approval of the Director of the Department of Public Works of the City and that said sewers shall be constructed in a manner to exclude ground and surface water.

VII.

It is further agreed by the Township that if the City shall be required by the State Sanitary Water Board of the Commonwealth of Pennsylvania or otherwise find it necessary or advisable to extend said main trunk sanitary sewer from

Streets Run to a point of discharge lying below the present outlet or to construct sewage treatment works, then, in that event the Township will pay its proportionate share of the cost of the construction, maintenance, repair and operation of such extension and such sewage treatment works, said proportionate share to be based upon the area, and the estimated then present and future population of the Township. Its proportionate share of such cost shall be based upon the distribution of the whole cost on a pro rata basis upon all the municipalities served by said trunk sewer.

VIII.

The City shall have the right to permit other municipalities to connect with said trunk sanitary sewer provided, however, that such connection or connections shall not interfere with the use of said trunk sanitary sewer by the Township.

IX.

This agreement shall become effective from the date of its execution.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be duly executed the day and year first above written.

No. 629

AN ORDINANCE—Authorizing the City of Pittsburgh to cooperate with the Housing Authority of the City of Pittsburgh by furnishing certain municipal aid for housing projects of said housing authority; clarifying existing contracts between the Housing Authority and the City of Pittsburgh; prescribing a form of contract with the Housing Authority of the City of Pittsburgh with reference thereto, and authorizing the execution of said contract.

WHEREAS, the Housing Authority of the City of Pittsburgh proposes to develop and administer a low-rent housing project, known as Project PA-1-4, (and hereinafter called the "Project") consisting of approximately five hundred ninety (590) dwelling units; and

WHEREAS, there exist in the City of Pittsburgh unsafe and insanitary dwelling accommodations of a number greatly in excess of the number of dwelling units to be included in Project No. PA-1-4 which are occupied by families of low income and which constitute a menace to the health, safety, morals and welfare of the inhabitants of the City of Pittsburgh; and

WHEREAS, there are now families of low income in the City of Pittsburgh of a number greatly in excess of the number of dwelling units to be included in Project No. PA-1-4 who are forced to inhabit such unsafe and insanitary dwelling accommodations, because private enterprise has not been able to make available to such families, safe and sanitary dwelling accommodations at rentals which such low income families can afford to pay; and

WHEREAS, the City of Pittsburgh and the Housing Authority of the City of Pittsburgh have executed an Agreement

dated as of July 25, 1938, concerning certain low-rent housing projects, other than Project PA-1-4, which are referred to in said Agreement as being more fully described in "Project Description II-A" and "Project Description V-A," filed with the records of the Authority, which low-rent housing projects are presently known as Project No. PA-1-1 and Project No. PA-1-2, and, whereas it is the desire of the City of Pittsburgh and the Housing Authority of the City of Pittsburgh to clarify such Agreement; NOW, THEREFORE,

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the City of Pittsburgh shall enter into a Cooperation Agreement with the Housing Authority of the City of Pittsburgh in substantially the following form:*

COOPERATION AGREEMENT

1. The Housing Authority of the City of Pittsburgh (hereinafter called the "Authority") agrees to undertake, develop and administer a low-rent housing Project, known as USHA-Aided Project No. PA-1-4, (and hereinafter called the "Project") in the City of Pittsburgh (hereinafter called the "City") and to endeavor to secure a contract or contracts with the United States Housing Authority for Federal annual contributions to assist in the administration of such Project.

2. In consideration therefor the City agrees that, as a part of such Project, it will eliminate within one year of completion of the Project, in one or the other of the ways set forth below, under (a), (b) and (c), or partly in one way and partly in another a number of unsafe or insanitary dwelling units within its jurisdictional limits, at least equal in number to the number of new dwelling units to be provided in said Project to be undertaken by the Authority, less the number, if any, of unsafe or insanitary dwelling units which will be eliminated on the site or sites of Project by the Authority during the development thereof:

- (a) By demolishing dwelling units which are on land acquired by the City by purchase or otherwise including demolition of such dwelling units on land purchased

for any public uses; or

- (b) By causing the compulsory demolition, effective closing, repair or improvement of such unsafe and insanitary dwelling units; or
- (c) By inducing private owners voluntarily to demolish or effectively close such dwelling units.

In computing the number of unsafe or insanitary dwelling units eliminated under the terms of this Agreement, there shall be included all unsafe or insanitary dwelling units eliminated under this Agreement from the date hereof; provided, however, that all unsafe or insanitary dwelling units eliminated by the City prior to the date of this Agreement and subsequent to September 1, 1937, will be counted as elimination under this Agreement if it is satisfactorily established that such elimination was undertaken in anticipation of the execution of this Agreement or in anticipation of the development of the Project. For the purpose of this Agreement, a dwelling unit shall be considered unsafe or insanitary whenever by reason of dilapidation, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, it is detrimental to safety, health or morals. It is hereby declared the intention of the parties that the equivalent elimination accomplished by the City, pursuant to the terms of any other Agreement with the Authority, is not to be considered as satisfaction of the requirements of this Agreement. In addition, it is agreed that the equivalent elimination accomplished by the City pursuant to the terms of the Agreement dated March 12, 1938 shall not be considered as satisfaction of the equivalent elimination required under the terms of the Agreement dated October 29, 1938; nor shall the equivalent elimination required by the latter Agreement be considered as satisfaction of that required by the former.

3. The City further agrees that during the period commencing with the date of the acquisition of any part of the site of the said Project and continuing throughout the useful life of such Project, it will not levy, impose or charge any taxes, special assessments, service fees, charges or tolls against the

Project or against the Authority for or with respect to the Project. The City further agrees that it will furnish, without cost or charge to the Authority and the tenants of the Project, the usual municipal services and facilities which are or may be furnished without cost or charge to other dwellings and inhabitants in the City, including but not limited to: fire, police and health protection and services, snow removal, garbage and trash collection and disposal, maintenance and repair of streets, roadways and curbs, maintenance and repair of street lighting equipment, maintenance and repair of water mains and their appurtenances, maintenance and repair of storm and sanitary sewers and their appurtenances, in or on public streets or ways now in existence, (or to be dedicated to and accepted by the City) within, leading to, or forming the boundaries of the Project; and the City will furnish, maintain and repair, without cost or charge to the Authority, the Project, or the tenants thereof, fire and police alarm and traffic systems complete, adequate to serve the Project in or on public streets or ways now in existence, (or to be dedicated to and accepted by the City) within, leading to, or forming the boundaries of the Project; and will provide, without cost to the Local Authority, at the boundary of the Project, storm and sanitary sewers and their appurtenances and water mains and their appurtenances, adequate to serve the Project, and streets including curbs, sidewalks and roadway pavement, adequate to furnish access to the Project. The term "useful life of such Project" as used in this Agreement, shall mean the period of physical usefulness of the said Project for the purpose of providing dwelling accommodations, but in no event less than the number of years during which any of the bonds issued to aid in financing the development of said Project or any bonds issued to refund such bonds shall remain outstanding.

4. The City further agrees to cooperate with the Authority by vacating such streets, alleys and other places within the area of the Project or adjacent thereto as may be necessary in the development of such Project, by accepting the dedication of land for new streets and alleys, by zoning or rezon-

ing to a classification satisfactory to the Local Authority, any area in the City within which the Project shall be located, and by such other lawful action or ways as the City and the Authority may find necessary in connection with the development and construction of the Project. The City hereby grants the right to lay, install, and maintain, if necessary, any gas, water, or sewer laterals or branches or erect or install electrical conduits, wires, and poles, in, on, upon, across, over or under dedicated public streets, the laying out of such rights-of-way to be approved by the proper City Department or official, all at no cost or charge to the Local Authority.

5. The City and the Authority agree that this contract shall not be abrogated, changed, or modified so long as any bonds issued to aid in financing the development of the Project to which this contract relates or any bonds issued to refund such bonds shall remain outstanding and unpaid and so long as the title to said Project (except for the lien or title conveyed to secure any bonds or other evidences of indebtedness issued to aid in the financing of the Project or to secure any bonds or other evidences of indebtedness issued to refund such bonds or evidences of indebtedness) is held by the Authority or some other public body or governmental agency authorized by law to engage in the development or administration of low-rent housing projects; and that this Agreement may be assigned for the protection of the purchasers of any bonds issued to assist in the development of the Project.

6. For the purpose of clarifying the Agreement between the Authority and the City dated July 25, 1938, concerning the low-rent housing projects presently known as Project No. PA-1-1 and Project No. PA-1-2 (which low-rent housing projects are referred to in this, Paragraph 6 as the "Projects"), it is hereby declared and agreed that the intent and tenor of said Agreement includes, among other things, the City's covenant that during the period commencing with the date of the acquisition of any part of the site of said Projects and continuing throughout the useful life of said Projects, it will not levy, impose or charge, any taxes, special assessments, service fees, charges or tolls, against the Pro-

jects or against the Authority for or with respect to the Projects.

- (a) Data required for preparation of payrolls shall be submitted to the City Controller in such form, and at such times, as he may prescribe, this data to include records of employment, time worked, whether compensation is based upon hours or days worked, quantity of work performed or upon a monthly or annual salary basis, and such other records or reports with reference to personal service as may be required.
- (b) Payrolls shall be prepared by the

City Controller upon the basis of such records or reports, and submitted by him to the respective directors or heads of departments or offices for approval and certification in such form as he may prescribe.

- (c) No transfer shall be made from one appropriation item to another except by resolution or ordinance of council, and such resolution or ordinance shall in each case set forth the reasons for such request, and be accompanied by a certification from the Controller stating that there is a sufficient balance unencumbered and available in the appropriation item from which the transfer is to be made.

Section 3. No obligation shall be incurred by any department of the City government other than for salaries or wages, or for necessary expenses of employees when engaged upon city business, except through the issue of an order, stating the service to be rendered, work performed, or supplies, materials or equipment to be furnished together with the estimated cost of the same. The Director of the Department of Supplies is hereby authorized and directed to provide upon requisition by the head of any department all necessary supplies, materials, equipment and machinery for such department; provided, however, that no requisition of any department

shall be filled by the Director of the Department of Supplies in excess of the unencumbered balance of the appropriation properly chargeable, and that no order shall be issued by the Director of the Department of Supplies, or by the head of any other department of the City government, until it has been approved by the City Controller. Payments on account of direct purchase shall be made from the amounts hereinafter appropriated therefor respectively. Bill No. 163.

Charles Anderson, who died June 21, 1939, was unassuming, direct, frank, courageous, unfaltering in his faith, and supremely confident in the ultimate triumph of any work he undertook.

He never despaired because he was not able to attain the things for which he was striving, and he never acknowledged defeat or yielded to discouragement in striving toward his objectives.

He had many of the traits of character which we find in men of greatness. One of these qualities was strength and the other wisdom to submit to temporary inconvenience and to sacrifice advantage to achieve his ultimate ends. His philosophy was a mixture of tolerance, humor, insight, and understanding, and he had a persistent urge to substitute justice for injustice.

His qualities in general were supplemented by imagination, faith and courage.

Never was he so absorbed in his work that he did not have time for a word of kindness and encouragement for his colleagues and friends.

In early manhood he learned the plumber's trade, and was business agent for Local Union No. 27, Journeyman Plumbers; was plumbing inspector for the City of Pittsburgh from 1908 to 1917, and was an organizer for the American Federation of Labor. From 1920, when he was elected as a member of City Council, until the time of his demise, he retained membership in the Plumbers' Union, and represented that organization at the annual conventions of the American Federation of Labor.

During the World War, Mr. Anderson was an investigator and supervisor in the Bureau of Employment, United States Department of Labor, his duties including the responsibility of keeping the various war industries supplied with workers. A son, Charles, with the 3rd United States Field Artillery, died in France while in the service; Therefore, be it

Resolved, That the City of Pittsburgh, through its Council and the Mayor, ex-

presses its deepest sorrow in the death of Charles Anderson a colleague and friend, and extends its sympathy to the bereaved members of his family; And, be it further

Resolved, That an engrossed copy of this resolution be transmitted to the bereaved family.

Bill No. 164.

Peter J. McArdle closed his earthly career on New Year's Day, 1940. He was honest, truthful and upright. His life was like an open book. He advocated measures which he thought were right, no matter who opposed him, or if he stood alone.

Industrious, faithful, loyal in the public office to which he was called, Mr. McArdle rendered genuine service, and his initiative will be productive of benefits in the future to those for whom he labored—the people.

Many years before he or his friends thought that he would occupy a public position, he gave a great deal of time and thought to bettering the conditions of his city and to help his fellow-citizens; and during his long years of service in the legislative branch of the City Government devoted much labor and thought to the welfare of her people. He indeed was a fine example of civic virtue.

When a young man he applied himself studiously to bettering his education, and rose to the highest position within the ranks of the labor organization of which he was a member.

He was tolerant of those who differed with him on any subject, and recognized in debate and otherwise that his opponents were actuated by the same patriotic sentiment in their position that he was in his.

His life was clean and pure; practicing daily all the principles he professed, with sublime devotion as a husband and father, plain, straightforward

ward and unassuming, he was one whom any person would delight to honor; Therefore, be it

Resolved, That the City of Pittsburgh, through its Council and the Mayor, expresses its deepest sorrow in the death of Peter J. McArdle, a colleague and friend, and extends its sympathy to the bereaved members of his family; And, be it further

Resolved, That an engrossed copy of this expression of sympathy be transmitted to the bereaved family.

Whereas, City taxes and water rates were assessed from the years 1928 to 1940 in accordance with the aforesaid erroneous assessment, and also entered as liens in the Prothonotary's Office appearing in the R. Whereas, Morris Cohen did pay the amount of \$66.83, demanded of him, on January 27, 1934, and

Whereas, It now appears that the said tax statement sent to Morris Cohen at 305 Dinwiddie street, as against his property, was in fact a statement of the city taxes assessed for the year 1934 against real estate at 230 Dinwiddie street, owned by another Morris Cohen. Morris Cohen of 305 Dinwiddie street, should have received a statement for city taxes amounting to \$84.12 if paid in the month of January 1934.
